NorthEast MultiSport is a rapidly growing triathlon club currently serving over 90 members in New Hampshire and Massachusetts. We are a nonprofit corporation dedicated to providing education and resources to amateur multisport athletes.

Our members compete in multisport events such as triathlons (swim, bike, run) and duathlons (run, bike, run), along with single sport events.

The demographics of our membership closely mirrors those found in a 2009 nationwide survey of triathletes. A typical triathlete is a married, 38 year old, white collar worker, with an upper-middle class household income.*
